

# Citrix Endpoint Management Android

Welcome to the simple,  
more secure way to work  
on your mobile device.

Please use these steps  
to install Citrix Secure Hub,  
Citrix Files, Secure Web  
and Secure Mail onto your  
mobile device.

## A new way to work

### Why are we using this new way to work?

**Easy access** to your corporate, cloud, and productivity apps from your mobile device.

**Better security** – IT is able to keep company information separate from your personal information and can keep it more secure because it's not stored on your actual device.

**Limitless productivity** – Secure Mail and Secure Web provide many convenient features built for business, like mail encryption, one-touch access to join a meeting, out-of-office notifications, secure file sharing, and more.

**Privacy guarantee** – Your personal information remains private. IT cannot infringe on your privacy by accessing things like your screen, browsing history, text messages, photos, and videos.

**Sign in once** and gain access to all your corporate apps, files, and even desktops from any of your mobile devices.

# Citrix Secure Hub

## Installation steps

- 1 Download and install **Citrix Secure Hub** from the Android App Store.
- 2 Tap **Allow** 3 x to allow access.
- 3 Enter your email address and then tap **Next**.
- 4 Enter your user name and password and then tap on **Next** to continue.
- 5 Accept the terms and conditions and **Activate**.
- 6 Create a **secure Citrix pin**.
- 7 Then follow the steps to **Install Secure Web, Secure Mail and Citrix Files**.
- 8 Your installation is **complete**.

## Congratulations!

Your device now has access to company resources.
