

Citrix Endpoint Management iOS

Welcome to the simple, more secure way to work on your mobile device.

Please use these steps to install Citrix Secure Hub, Citrix Files, Secure Web and Secure Mail onto your mobile device.

A new way to work

Why are we using this new way to work?

Easy access to your corporate, cloud, and productivity apps from your mobile device.

Better security – IT is able to keep company information separate from your personal information and can keep it more secure because it's not stored on your actual device.

Limitless productivity – Secure Mail and Secure Web provide many convenient features built for business, like mail encryption, one-touch access to join a meeting, out-of-office notifications, secure file sharing, and more.

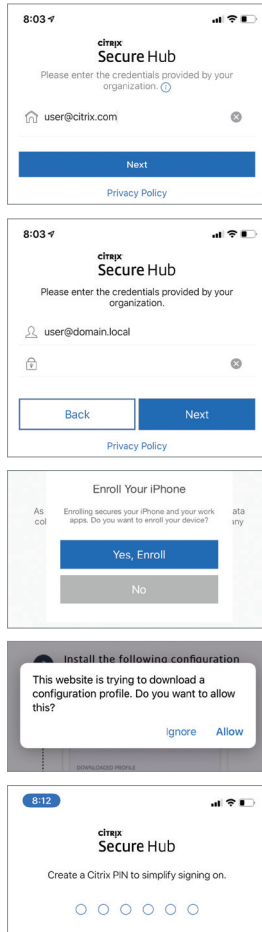

Privacy guarantee – Your personal information remains private. IT cannot infringe on your privacy by accessing things like your screen, browsing history, text messages, photos, and videos.

Sign in once and gain access to all your corporate apps, files, and even desktops from any of your mobile devices.

Citrix Secure Hub

Installation steps

- 1 Download and install **Citrix Secure Hub** from the Apple App Store.
- 2 You will then be asked if you would like to receive notifications. Tap **Allow**.
- 3 Enter your email address and then tap **Next**.
- 4 Enter your user name and password and then tap on **Next** to continue.
- 5 Tap **Yes, Enroll** to begin the enrollment process.
- 6 **Accept** the terms and conditions.
- 7 When prompted click **Allow**.
- 8 **Follow the steps** on the screen to begin installing the profile.
- 9 Open Secure Hub and create a **secure Citrix pin**.
- 10 When prompted tap **Install** to begin downloading any applications required by your organization.

Congratulations!

Your device now has access to company resources.
