

Configure Abacus for Single Sign-On

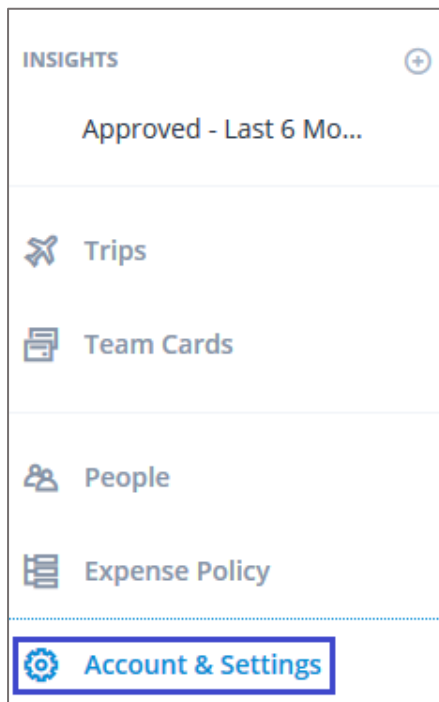

Configuring Abacus for single sign-on (SSO) enables administrators to manage users of Citrix Gateway service. Users can securely log on to Abacus by using the enterprise credentials.

To configure Abacus for SSO by using SAML:

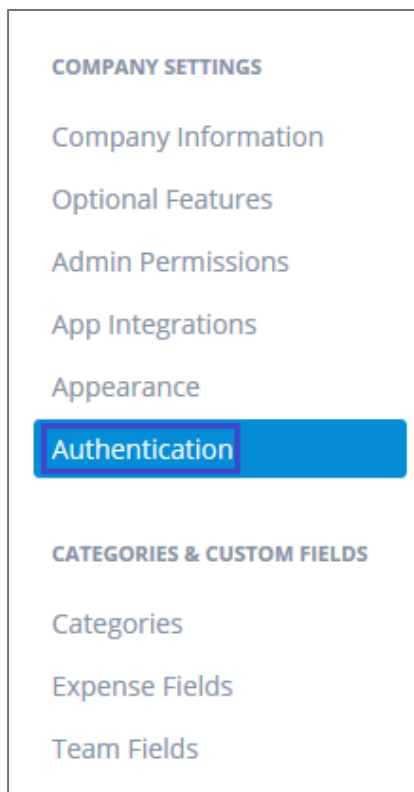

1. In a browser, type <https://www.abacus.com/login> and press **Enter**.
2. Enter your Abacus admin account credentials (**Email address** and **Password**) and click **Log In**.

The image shows a screenshot of the Abacus login interface. At the top center, the Abacus logo is displayed in blue. Below the logo is a white rectangular box containing the login form. The form has two input fields: the top one is for the email address and the bottom one is for the password, with the password field masked by black dots. Below the email field is a blue button with the text "Log In" in white. To the right of the "Log In" button is a link that says "Forgot Password?".

3. In the left pane, click **Account & Settings**.

4. Click **Authentication**.

- In the **Authentication** page, select **Your team logs in with Single Sign On via SAML**.
- Enter the values for the following fields:

Required Information	Description
Sign-in page URL	IdP logon URL
Identity Provider Issuer	IdP issuer URL
X.509 Certificate	Copy and paste the IdP certificate, after clicking the Modify Key . The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP metadata is provided by Citrix and can be accessed from the link below: <a href="https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/<app_id>/idp_metadata.xml">https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/<app_id>/idp_metadata.xml

Authentication

Your team logs in with their Abacus username and password
 Your team logs in with Single Sign On via SAML

Single Sign On via SAML allows your team to use a centralized system to manage accounts and authentication. [Learn more](#)
