

Configure Prescreen for Single Sign-On

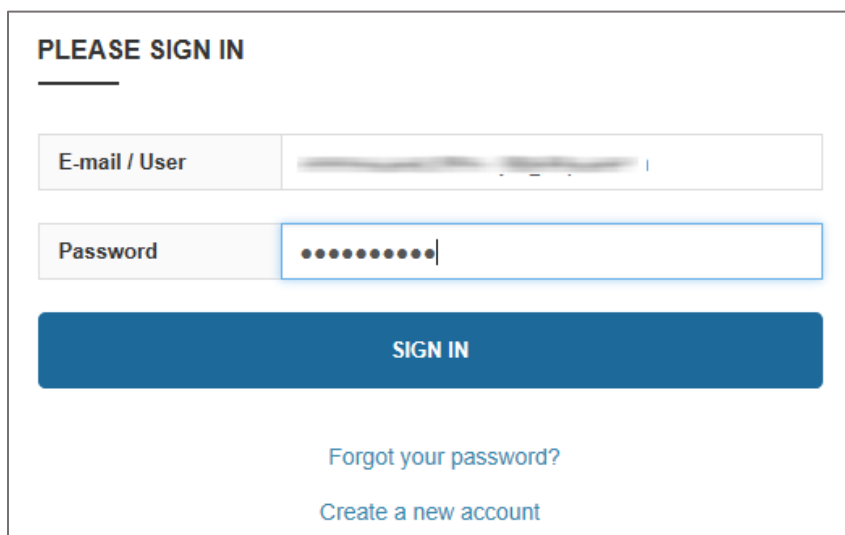

Configuring Prescreen for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Prescreen by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

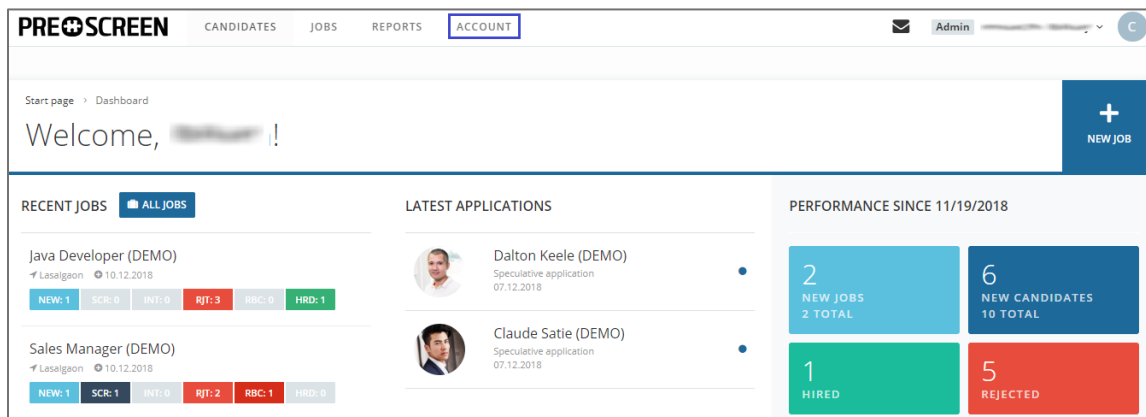

To configure Prescreen for SSO by using SAML:

1. In a browser, type <https://prescreenapp.io/> and press **Enter**.
2. Type your Prescreen admin account credentials (**Email / User** and **Password**) and click **SIGN IN**.

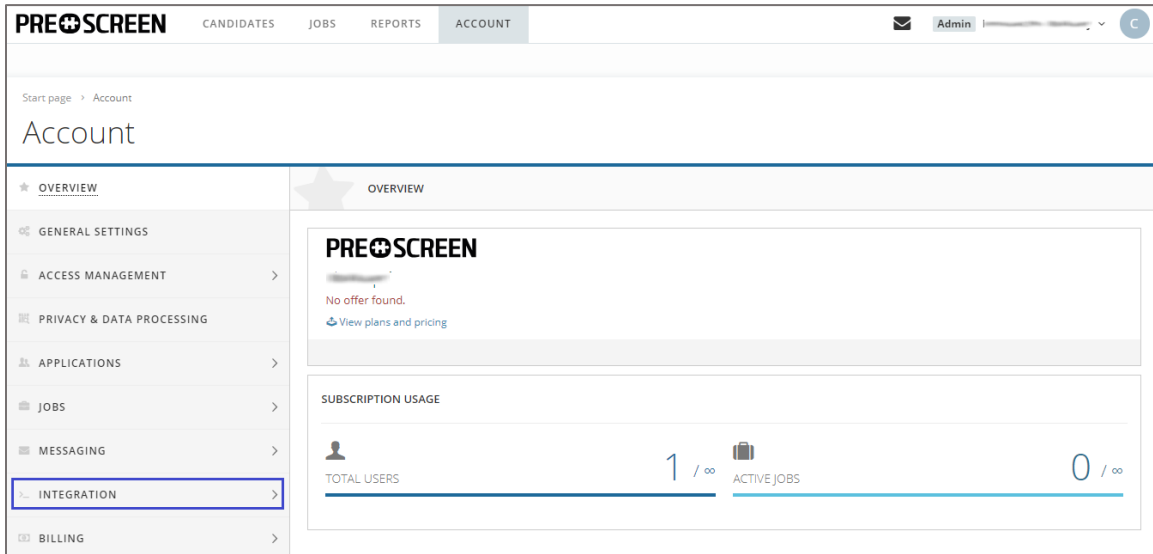

The screenshot shows the 'PLEASE SIGN IN' login page. It features two input fields: 'E-mail / User' and 'Password'. The 'E-mail / User' field contains a blurred email address. The 'Password' field contains ten dots. Below the fields is a large blue 'SIGN IN' button. At the bottom, there are two links: 'Forgot your password?' and 'Create a new account'.

3. In the dashboard page, click **ACCOUNT**.

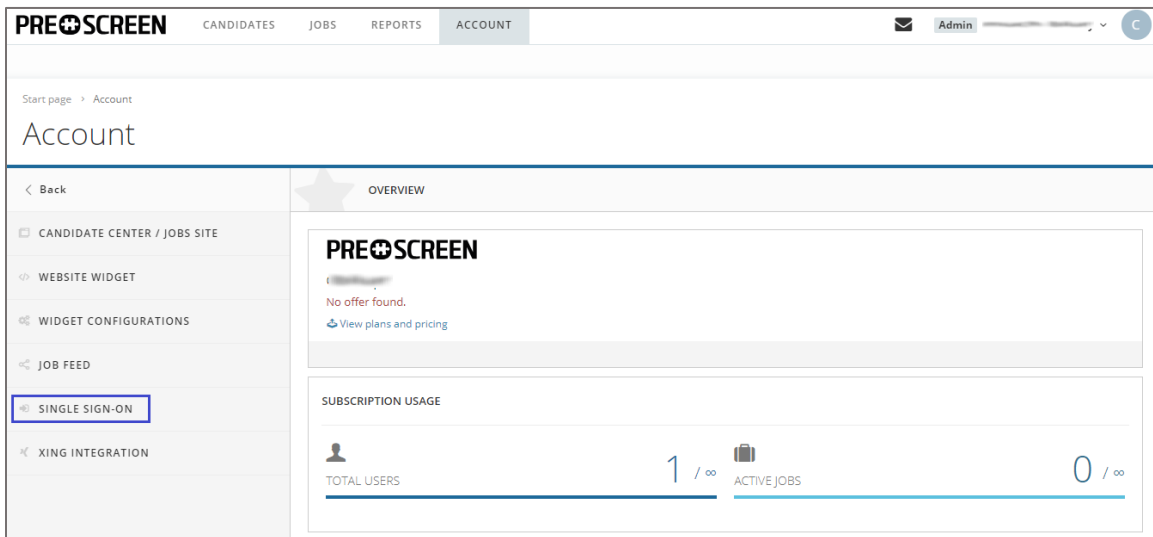

The screenshot shows the Prescreen dashboard. The top navigation bar includes 'PRESCREEN', 'CANDIDATES', 'JOBS', 'REPORTS', and 'ACCOUNT' (which is highlighted). The user is logged in as 'Admin'. The dashboard displays a 'Welcome, [blurred name]!' message and a 'NEW JOB' button. Below this, there are three main sections: 'RECENT JOBS', 'LATEST APPLICATIONS', and 'PERFORMANCE SINCE 11/19/2018'. The 'RECENT JOBS' section shows two job listings: 'Java Developer (DEMO)' and 'Sales Manager (DEMO)'. The 'LATEST APPLICATIONS' section shows two application listings: 'Dalton Keele (DEMO)' and 'Claude Satie (DEMO)'. The 'PERFORMANCE SINCE 11/19/2018' section shows four statistics: 2 NEW JOBS (2 TOTAL), 6 NEW CANDIDATES (10 TOTAL), 1 HIRED, and 5 REJECTED.

4. In the **Account** page, click **INTEGRATION** in the left pane.

5. Click **SINGLE SIGN-ON** in the left pane.

- In the **SINGLE SIGN-ON** page, click **ADD IDENTITY PROVIDER**.

The screenshot shows a web interface for 'SINGLE SIGN-ON'. At the top right, there is a link for 'INTEGRATION DOCUMENTATION'. The main content area is titled 'INTRODUCTION' and contains text about SSO and SAML 2.0 Identity Providers. Below this, there are two sections: 'SERVICE PROVIDER XML' with a URL 'https://...prescreenapp.io/saml/sp.xml' and 'LOGIN URL' with a URL 'https://...prescreenapp.io/login'. At the bottom right, a green button labeled 'ADD IDENTITY PROVIDER' is highlighted with a blue border.

- In the **Add SAML 2.0 identity provider** pop-up window, enter the values for the following fields:

Required Information	Description
NAME*	Netscaler
ENTITY ID*	Issuer URL
USER ATTRIBUTE*	Select E-Mail from the drop-down list.
SAML-RESPONSE ATTRIBUTE*	Select Subject Name-ID from the drop-down list.
METADATA FILE*	<p>Copy and paste the IdP certificate. The IdP certificate must begin and end with - - - -Begin Certificate- - - - and - - - -End Certificate- - - -</p> <p>Note: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app. <a href="https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml">https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml</p>

Add SAML 2.0 identity provider ✕

NAME *
Choose a name for this provider.

DESCRIPTION
Enter a description for your employees.

ENTITY ID *
The Entity ID of the identity provider.

USER ATTRIBUTE *
The identifying attribute returned by the identity provider.

SAML-RESPONSE ATTRIBUTE *
Response XML attribute containing the identifying information.

METADATA FILE *
Upload a SAML IdP metadata XML including a valid certificate.

8. Finally, click **SAVE**.
