# Configure TestingBot for Single Sign-On

Configuring TestingBot for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to TestingBot by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

To configure TestingBot for SSO by using SAML:

1. In a browser, type https://testingbot.com/users/sign_in and press **Enter**.

2. Type your TestingBot admin account credentials (**EMAIL** and **PASSWORD**) and click **Sign in**.

3. To enable and configure SSO, the user must contact TestingBot support team and provide them with the following:

Required Information	Description
IdP metadata	The IdP metdata URL is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netscalergatewaydev.net/idp/saml/templatetest/<app_id>idp_metadata.xml

Note: The support team will configure the SP from the backend.
